Name:_____

A bibliography is a list of resources at the end of a (research) project.
Each item on the list is called a citation.

<u>Why do you need a bibliography?????</u>

1. To let the reader (or viewer) of your project know you used facts and reliable resources.

2. To follow the copyright law and give credit to the people who created the original work.

You also need to create a bibliographical citation to give credit when you use an image or quotation online in a wiki, blog, or website.

From your worksheet list all your resources, make sure to write if they are print or online resources.

Type of resource (Encyclopedia, Atlas, Dictionary, Nonfiction book, website)	Title (Name) of Resource	If it is a Book--- Write down the: *Author *Publisher *Year Published *Place Published	If it is a Website--- Write down the: *url (http://www.) *the date you used it. *title of the website
